	APPROVAL OF STATE ENGINEER
	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the
sub und promet div The the ins descript 474 561 561	This temporary permit to change the point of diversion of a portion of the ters of an underground source as heretofore granted under Permit 47148 is issued bject to the terms and conditions imposed in said Permit 47148 and with the terstanding that no other rights on the source will be affected by the change posed herein. The well shall be equipped with a 2-inch opening and a totalizing ter must be installed and maintained in the discharge pipeline near the point of tersion and accurate measurements must be kept of water placed to beneficial use. It totalizing meter must be installed before any use of the water begins or before a proof of completion of work is filed. If the well is flowing, a valve must be stalled and maintained to prevent waste. This source is located within an area signated by the State Engineer pursuant to NRS 534.030. The State retains the left to regulate the use of the water herein granted at any and all times. This temporary permit does not extend the permittee the right of ingress and tess on public, private or corporate lands. The total combined duty of water under Permits 39881, Certificate 11893, 47148, 113, 47414, 48175, 50026, 50027, 50028, 54617, 55265, 56171-T, 56172-T, 56173-T, 174-T, 56175-T, 56176-T, 56177-T, 56178-T, 56179-T, 56180-T, 56181-T, 56182-T, 183-T, 56184-T, 56201-T and 56202-T shall not exceed 5834.9 acre-feet annually. NOTINUED ON PAGE 2)
The	amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to
exce	cubic feet per second, but not to exceed 72.39 acre-
	feet annually.
Woı	k must be prosecuted with reasonable diligence and be completed on or before
Proc	of of completion of work shall be filed before
App	of of the application of water to beneficial use shall be filed on or before.
Proc	of of the application of water to beneficial use shall be filed on or before
	o in support of proof of beneficial use shall be filed on or before
iviaj	in support of proof of beneficial use shall be med on of before

(PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from each well and the amount of water used for mining and milling purposes.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on June 24, 1992 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The permittee or its representatives shall submit a monitoring plan to the State Engineer within three months after the issuance of this permit. This plan must address all potential impacts resulting from the dewatering of the pit area. The State Engineer retains the right to require the permittee to cooperate in the funding of a hydrology study to be conducted by an independent third party.
